

Minor Rotation

GRIEF THERAPY ROTATION

(4 weekly hours: 3 direct service; 1.0 supervision)

Program Description: This rotation is designed to afford interns the opportunity to gain more experience working with students affected by grief across a variety of treatment modalities. Interns will work with individual clients who are grieving the loss of a person of significance in their lives as well as co-lead the Grief Support Group.

Program Requirements: Interns are expected to provide psychotherapy experiences to grieving clients. Interns are also expected to fully engage in both individual and group supervision. In addition, interns will be expected to read and apply theories pertinent to their work with grieving clients. Interns will be expected to understand the difference between complicated and uncomplicated grief and to appropriately apply a task-oriented theory of grief in their therapeutic work. The breakdown of the total number of weekly hours for the rotation is as follows:

Individual Therapy Supervision:	0.5 hours
Group Therapy Supervision:	0.5 hours
Grief Support Group:	1.0 hours
Individual Clients/Couples:	<u>2.0 hours</u>
Total:	4 hours

Training/ Supervision Provided: Weekly ½ hour for supervision of individual clients and ½ hour for supervision of group.

Supervisors: Michael Valentine, MS, P-LPC (under supervision of Lu Switzer, MS, LPC-S)
